Subject Grade Information Sheet – Summer Series 2021

A Chance to Shine

Subject: *Geography*   Level **GCSE**

1) What evidence do you already have that may be used for grading?

Mock grades from term 2.

2) What "Chances to shine" are you providing to improve the evidence in 1) ?

Week	Topic	Tasks to last….	Extended question topic (see revision booklet)
19th April	Hazards and Landscapes	Minimum 30 minutes	Responses to a Tectonic Hazard and Management of Coastal Landscape.
26th April	Urbanisation and Development	Minimum 30 minutes	Challenge in an EDC/LIDC city and How Trade effects Development
3rd May	UK in 21st Century and Ecosystems	Minimum 30 minutes	Impact of human activity on Polar regions and How the UK is dealing with ageing population.
10th May	Climate Change and Resource Reliance	Minimum 30 minutes	Human contribution to greenhouse effect and Local Scale Food security.
17th May	Linking together geographical ideas	Spread over 2 lessons	Students given resource booklet in advance.
24th May	Linking together geographical ideas	Spread over 2 lessons	Students given resource booklet in advance.

Chance to shine timetable completed.
Students to complete 8 topics (2 per week for 4 weeks)
These will take 1 lesson per week.

The timetable
Below is a timetable of what topics are going to be completed in lessons in term 5. This is so that students can spread out their home learning and ensure that their revision can be focussed.

The Geography Plan
During term 5 (after 19th April) students will complete tasks and questions on the geography topics they have been taught. These will be spread out over the term and completed in geography lessons. We will continue to teach the remainder of the course during the other geography lessons along with some in class revision.

Help with revision.
Knowing which case study to revise will help focus revision time.
Students will be issued with a case study booklet from which to revise from and a revision checklist for each topic.
The revision booklet is also available on The Corsham School sharepoint under this link:
https://corsham.sharepoint.com/sites/subjects/Ge/Resources/Forms/AllItems.aspx?viewid=2f1aee12%2Dc75e%2D4550%2Da712%2Ddbbbacaec023&id=%2Fsites%2Fsubjects%2FGe%2FResources%2FKS4
Students will be able to use these resources while carrying out their tasks.

<u>In case of Yr11 "Bubble Down"</u>
As the tasks are planned for minimum of 30 minutes per week, we will be able to catch up assessments in future weeks should the need arise.

<u>Students self Isolating/home schooling.</u>
Exams can be emailed to student to complete at home and then emailed back.

3) When will these be and how will you prepare students for them?

Students given information booklet before Easter which informs them of the topics needed for each week. This allows the students to focus their revision and prepare fully for each opportunity to shine. The information sheet also informs students of when each topic will be needed.
Booklet contains specific revision information for each topic.
Booklet is also available on classcharts and Microsoft Teams.

4) How will you inform students and parents about specific "Chance to Shine" opportunities?

A4 sheet on topics and timetables outlining all the information above. This is the first page of the booklet issued to students.

5) Will the "chance to shine" task be available remotely? If so, where?

Yes – All opportunities can be shared on Microsoft Teams and emailed to students if necessary.

6) What form will your portfolio of evidence take and what will it contain?

Each student will have a file of evidence containing all their opportunities to shine (8 topics of short knowledge answers and extended writing).

7) How will you be checking/moderating grades?

Each opportunity to shine will be marked by the class teacher and moderated within the department.

8) How will you ensure students can see their portfolio of evidence? When will this be?

After opportunities to shine have been marked, students can see what mark they achieved for that piece of work. Students can also see what is in their file as this will be shared with them.
